

I find it frightening to think that the local television news and the local newspaper would be owned by the same person/group/conglomerate. This is clearly an advantage to them in paying fewer people to gather the news, but a great disadvantage to the viewing/reading public who lose the chance for differing points of view. To think they are doing this in cities now, knowing they are breaking a rule and having no respect for that rule is disturbing in itself. Please do what you can to reverse this trend and keep the news newsworthy.
